## OVERVIEW:-

### Sacred Educational Mission (S.E.M.)

Founded in 1999, Sacred Educational Mission (S.E.M.) has stood as a beacon of academic excellence and visionary learning. The College of Nursing and Paramedical Sciences operates under the esteemed approval of the Government of Jammu and Kashmir, is officially recognized by the J&K Nursing Council & Indian Nursing Council (INC) and proudly affiliated with the University of Kashmir.

Driven by a mission to nurture skilled and compassionate healthcare professionals, S.E.M. College blends rigorous academic training with hands-on clinical experience—empowering students to thrive and lead in the ever-evolving world of healthcare.

## Philosophy

The institution believes that the M.Sc. Nursing, B.Sc. Nursing, Post Basic B.Sc. Nursing & GNM Nursing programs provide a broad-based education aimed at the holistic development of nursing students. Our goal is to nurture compassionate and skilled professionals who uphold the Code of Ethics and maintain the highest standards of professional conduct.

We instill a sense of pride in the nursing profession, empowering students to fulfill their personal, social, and professional responsibilities while contributing to national and global healthcare aspirations.

## Aims & Objectives

The Nursing program aims to prepare students for world-class nursing practices, equipping them with expertise and professionalism in patient care. The institution strives to:

Develop high intellectual and innovative abilities to enhance the skills of Nursing students in delivering safe and effective healthcare.

Integrate research into the curriculum, enabling students to conduct need-based studies, publish in indexed journals, and present at international conferences.

Address the shortage of qualified nursing professionals, meeting both national and global healthcare demands.

## Courses Offered

These programs are designed to equip students with the knowledge and skills necessary to excel in the nursing and paramedical professions. SEM College of Nursing and Paramedical Sciences offers a range of professional programs in the field of healthcare. These include:

- |                                             |                   |
|---------------------------------------------|-------------------|
| ● M.Sc. Nursing                             | - 2 years         |
| ● B.Sc. Nursing                             | - 4 years         |
| ● Post Basic B.Sc. Nursing                  | - 2 years         |
| ● General Nursing and Midwifery (GNM)       | - 3 years         |
| ● GNM Lateral Entry                         | - 2 years         |
| ● Female Multipurpose Health Worker (FMPHW) | - 1 year 6 Months |
| ● Male Multipurpose Health Worker (MMPHW)   | - 1 year 6 Months |

These programs are designed to equip students with the knowledge and skills necessary to excel in the nursing and paramedical professions.

## Master of Science in Nursing (M.Sc. Nursing)

The Master of Science in Nursing (M.Sc. Nursing) programme is a two-year postgraduate degree designed to prepare highly competent nurse specialists, educators, administrators, and researchers. The programme provides advanced theoretical knowledge, clinical expertise, leadership skills, and research competencies required to meet the growing demands of modern healthcare services.

Students may specialize in disciplines such as Medical-Surgical Nursing, Obstetrics and Gynaecological Nursing, Child Health (Paediatric) Nursing, Community Health Nursing, and Psychiatric (Mental Health) Nursing. Upon completion, graduates can pursue careers as Nurse Educators, Clinical Nurse Specialists, Nursing Administrators, Researchers, Consultants, and Advanced Practice Nurses in various healthcare and academic institutions. The M.Sc. Nursing programme follows the curriculum prescribed by the Indian Nursing Council (INC) and emphasizes evidence-based practice, professional ethics, quality patient care, and research-oriented learning.

### Eligibility Criteria

Candidates seeking admission to the M.Sc. Nursing programme must meet the following criteria:

1. Must possess a B.Sc. Nursing, Post Basic B.Sc. Nursing, or equivalent degree recognized by the Indian Nursing Council (INC).
2. Must be a Registered Nurse and Registered Midwife (RN/RM) with the State Nursing Registration Council.
3. Must have secured a minimum of 55% aggregate marks in the qualifying examination (or as per applicable regulations).
3. Candidates must possess 1 year experience (teaching / clinical)
4. Must be medically fit to undertake the programme.
5. Admission shall be subject to fulfilment of university and regulatory body norms in force from time to time.

## Bachelor of Science in Nursing (B.Sc. Nursing)

The Bachelor of Science in Nursing (B.Sc. Nursing) programme is a four-year undergraduate degree designed to prepare graduates to deliver quality nursing care across various healthcare settings. The programme follows a semester-based system and is conducted in accordance with the Indian Nursing Council (INC) syllabus. It adopts a competency- and outcome-based approach, ensuring that graduates are equipped to provide safe, effective, and patient-centered care for diverse healthcare needs. Upon completion, students may pursue postgraduate studies such as M.Sc. Nursing or seek employment opportunities as Staff Nurses, Community Health Nurses, Military Nurses, Nurse Educators, Clinical Instructors, and Healthcare Administrators.

### Eligibility Criteria

Candidates seeking admission to the B.Sc. Nursing programme must meet the following criteria:

1. Must have passed the 10+2 examination or equivalent from a recognized board with Physics, Chemistry, Biology,
2. Must have obtained a minimum of 50% aggregate marks in Physics, Chemistry, and Biology (or as per applicable regulations).
3. The minimum age for admission shall be 17 years as on date of admission.
4. The candidate must be medically fit to pursue the programme.
5. Admission shall be subject to university and regulatory body guidelines in force from time to time.

### Pediatric Nursing Lab

## Post Basic B.Sc. Nursing

The Post Basic Bachelor of Science in Nursing (Post Basic B.Sc. Nursing) is a two-year, full-time program designed for Registered Nurses (RNs) who have already completed a diploma in General Nursing and Midwifery (GNM).

This course aims to enhance the professional competence of nurses by equipping them with advanced knowledge in nursing practice, leadership, management, education, research, and allied health sciences.

The curriculum includes core subjects such as Nursing Research, which empowers nurses to critically evaluate research findings and implement evidence-based practices in clinical settings, ultimately contributing to improved patient care outcomes.

### Eligibility Criteria

A 3-year diploma in General Nursing and Midwifery (GNM) is mandatory.

## General Nursing and Midwifery (GNM Course)

The General Nursing and Midwifery (GNM) program is a 3-year diploma course designed to equip students with essential knowledge and practical skills to become qualified nurses and midwives. The curriculum combines theoretical instruction, clinical demonstrations in laboratories, and hands-on practical training in diverse healthcare settings, ensuring well-rounded professional development.

### Eligibility Criteria

1. Candidates must have passed their Higher Secondary Examination (10+2) in any stream with a minimum of 45% marks (40% for candidates belonging to reserved categories).
2. The minimum age for admission is 17 years. There is no upper age limit.
3. The candidate must be medically fit to pursue the course.

## FMPHW & MMPHW Courses

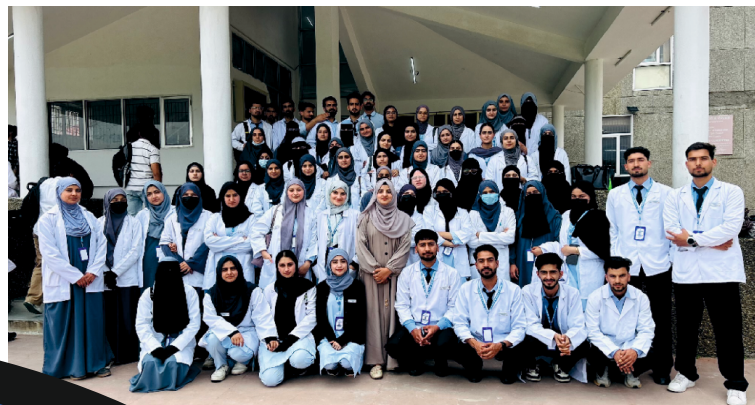

The Female Multipurpose Health Worker (FMPHW) and Male Multipurpose Health Worker (MMPHW) courses are excellent short-term, job-oriented programs. Upon successful completion, students become eligible for a wide range of employment opportunities in both government and private sectors. Career options include positions in Primary Health Centres, Government Hospitals, Multi-specialty and Super Specialty Hospitals, Clinics, and Old Age Homes, subject to the selection policies of respective institutions and the government.

The duration of each course is 18 months (1½ years), comprising: First Year: 12 months of classroom instruction along with internal practical training

Second Year: Continued classroom learning, internal lab practicals, and hands-on hospital training. These programs are designed to build strong foundational skills and practical knowledge necessary for effective healthcare service delivery.

### Eligibility Criteria for FMPHW & MMPHW Courses:

1. Candidates must have passed Matriculation (10th or 12th) Standard from a recognized board.
2. The age of the candidate should not exceed 35 years at the time of admission.
3. The candidate must be medically fit to pursue the course.

## Anatomy Lab

## Outreach Programs

Outreach activities are an integral part of our commitment to community service and public health. At S.E.M College of Nursing and Paramedical Sciences, our nursing students actively engage in a variety of outreach programs aimed at serving society. These include organizing health education sessions, conducting community clinics, and promoting awareness about health promotion, disease prevention, and healthy living practices. Through these initiatives, students not only contribute to the well-being of the community but also gain valuable hands-on experience in real-world healthcare settings.

## Research & Innovation

At S.E.M College of Nursing and Paramedical Sciences, research is an essential component of academic growth. Students enrolled in M.Sc. Nursing, B.Sc. Nursing, Post Basic B.Sc. Nursing, and General Nursing & Midwifery (GNM) programs study research methodology as part of their curriculum. They actively participate in group research projects under the guidance of experienced and qualified faculty members. These projects encourage critical thinking, innovation, and evidence-based practice—preparing students to contribute meaningfully to the advancement of nursing science and healthcare delivery.

## Nursing Sciences Laboratories

Our institution is equipped with well-established Nursing Science Laboratories designed to provide hands-on training in various clinical procedures. These labs serve as a foundation for practical learning, where students first observe and practice skills in a controlled environment before applying them in real-life healthcare settings. Each laboratory is fully furnished with modern equipment, tools, and supplies to ensure comprehensive and effective skill development, in line with current clinical standards.

## Nutrition Lab

## Infra-Structure facilities

S.E.M College of Nursing and Paramedical Sciences offers state-of-the-art infrastructure to support effective teaching and learning. All classrooms are equipped with smart boards and modern teaching aids, creating a technology-enabled learning environment.

Our laboratories are fully established with adequate equipment and supplies, allowing students to practice and master clinical skills through demonstrations before entering real healthcare settings.

The college is affiliated with a wide network of specialty and super-specialty hospitals for clinical training, including SKIMS Hospital Soura Srinagar, JLNH Hospital, Apollo Hospital (Delhi),

Al-Falah Hospital (Delhi), ASYM Hospital, all GMC Hospitals, and All District Hospitals of Kashmir.

We take pride in our team of qualified and experienced faculty members who are committed to delivering high-quality education across all programs.

## Co-curricular Activities

S.E.M College of Nursing and Paramedical Sciences encourages holistic development by actively promoting co-curricular activities. The institution provides platforms for students to express their cultural and artistic talents through music, dance, drama, drawing, and visual arts. These activities not only enhance creativity and confidence but also foster teamwork and a vibrant campus life.

## Check why we are different
